CERN Denia Bouhired-Ferrag (BE), SpaceX ElonReeveMusk,**CERN -women,****Did you deliberate with CERN-men about my EQ-futurebringer's skill?**

In stead of talking about Politics issues collected from conferences, the CERN- women have a far more inportant Space-duty to fullful.

The Blind can scan the environment and turn their findings into an accurate 2D drawing for People with sight.

I told the C-Men:'I have limited eyesight, what will only become a problem when I am in my 70-ties and develop Cataract.'

But I do have skills that are usually linked to disabled persons. I can 'scan the Universe in the Light - put some EQ-maths in the findings - and predict the Future. I am doing rather well...'

This brings me to new CERN-definitions for Earth:

Light = EQ-formula full of Psysics & Mathamethic-formula's.

Let's be honest:'Everything we know about Space arrived on Earth as "Blow-indoors-knowledge'.

EQ-formula's in the whole CERN or SpaceX-system will be 'normal calculations in the year 3065'.

That's if mankind is clever enough to keep the men on Earth virtile for reproduction.

The Blind show us the way.

I think that their brain has an extra strong developed Infra-red-centre,"

that can scan the environment in 3D perception +

bring the image to a Drawing-centre inside their heads +

transmit this 3D image to the 2D white-light-centra in their brain +

put it into a touchable drawing for simple people on Earth.

These Blind persons can draw roofs of building, amazingly recognizable & correct.

They can't touch a roof or full 3D horizon!

CERN-women can try to make this system the Blind use 'livable & workable for All of Us, Space-proof'.

I only have EQ, no IQ.

Well.... yesterday I told the police that the NL-monarchy is ItalianMaffia in Palermo = I must have some IQ.
Or, is it EQ?

The Human body clearly has more skills inside the stamcells, than we use today.

The Light provides a more detailed work-place for the Human body, than we believe on an average day.

The skills of the disabled persons must be translated in the Light into Details for the work-lace in the Light.

Needed?

CERN-women who are on their way to become Human robots in the year 3065.

EQ-futurebringers, who somehow can operate in the Light, despite the fact that the Physics - Math formula's are still missing.

Women who build Rockets for Multiplanetary-lifestyles.

CERN-Wit-women... don't waste your Evolution of Talent & Skills on Politics; you are needed in other fields.

Bring All of Us the knowledge about Infra-red Light in the Human body.
